PROFESSIONAL EXPERIENCE

Software Engineer
Paysys Labs Pvt Ltd | Dec-2022 - Present

- I contributed to various app service projects, where I played a role in both maintaining and developing new services
- My responsibilities included ensuring the smooth functioning of the middleware layer and actively participating in the development of new services to support our projects' growing needs
- Working on Digital Services allowed me to deepen my expertise in middleware and app service development while contributing to the success of multiple projects

Software Design Engineer
TeReSol Pvt Ltd | Mar-2022 - Dec-2022

- Experienced in refactoring legacy systems using modern frameworks like Quarkus
- Strong understanding of software design patterns and best practices
- Experienced in testing methodologies, including unit testing and integration testing
- Knowledgeable in security principles and implementing secure coding practices

Django Developer (Intern)
GBS (Ghani Business Solutions) | Feb-2021 - May-2021

- Designed and developed RESTful APIs for seamless integration with ReactJS
- Assisted in backend system architecture and implementation of authentication and authorization mechanisms
- Actively participated in learning and contributing as a Django intern
